

2014 The entrance ceremony

The entrance ceremony of 2014(spring) was held at the university auditorium on April 11th, and the new 20 graduate students entered UGSVS.

At the ceremony, the newly elected President of Gifu University, Professor MORIWAKI, Hisataka explained about the importance of research and contribution to society and encouraged new students of both UGSVS and UGSAS. The research guidance and support by faculty members are appreciated for their PhD program in advance.

News of UGSVS Board of Representatives (the discretionary budget by Dean of UGSVS)

The program for the development of young researchers

The program is continued from last year, 12 applications are submitted and returned to the each candidate with request from UGSVS now. UGSVS encourages the students not only to research but also present their research at the conference or seminar such as SaSSOH by Hokkaido University, Program for Leading Graduate Schools. Participants for SaSSOH were also recruited.

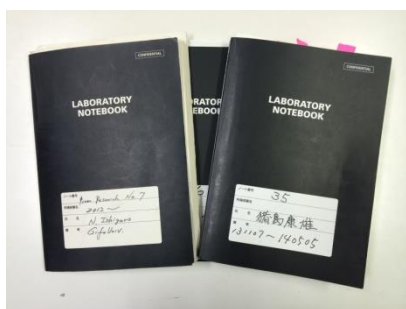

Seminar project

At the meeting with students at each university last year, UGSVS asked the students to held seminar or workshop. This year UGSVS make a plan as a new project on the budget. This project supports the students or university having any plan of seminar or workshop and UGSVS is looking forward to many proposals for this project.

From Dean, UGSVS

“Do you keep writing record at experiment notebooks?”

From the paper of STAP at Nature, researchers' ethics is being questioned.

Regardless of whether STAP or phenomenon of STAP is true or no, there is a big problem with the researches and researchers' ethics. There are three actions, Fabrication, Falsification and Plagiarism (FFP) as wrongdoing in science. Scientist never do these actions.

Do you write keep writing records at experiment notebooks every day? Only your experiment notebooks become evidence to make a protestation of the innocence. It is very important to keep writing records and date by ballpoint pen at experiment notebook not to save records on PC.
