

Family Perspective WORK-LIFE BALANCE

~The appeal of research careers~

Schedule

September 20, 2024 (Friday)

3rd day of the 74th Conference of Japan Society of Coordination Chemistry (JSCC),

11:40 – 12:50

* Important note *

- Participants will receive a FREE boxed lunch (Bento)!
- Walk-in participants on the day are also welcome, but lunches will be provided only to those who have registered in advance.)

Seminar format

Hybrid (Onsite at Gifu University and Online via Zoom)

Participation fee

Free ※Registration fee for the 74th Conference of JSCC is required separately.

(Japanese only)

How do you perceive the work-life balance of researchers? Fewer students are entering doctoral programs and pursuing research careers. It seems that the difficulty in envisioning a healthy work-life balance in academia is one factor discouraging individuals from choosing research careers. Work-life balance varies depending on research environment/occupation, family structure, and generation *etc.* In this seminar, we invite researchers from a variety of backgrounds, and their families to introduce typical cases and experiences regarding work-life balance, career paths, and ways to improve life in research positions. We aim to showcase “the appeal of research careers with work-life balance”, and offer “practical tips for enjoying this path” to young generations.

This is a panel discussion held during lunch. We hope you will join us!

Panelists

Hitomi Ohmagari (AIST)

Yuko Takeoka (Sophia University)

Mio Kondo (Tokyo Institute of Technology)

Ryotaro Matsuda (Nagoya University)

Manabu Nakatani (Josai University)

Yukikazu Takenoka (Nagoya University)

Kei Murata (The University of Tokyo)

Coordinators

Ayumi Ishii (Waseda University)

Masashi Okubo (Waseda University)

Organized by

Diversity Promotion Committee, The Japan Society of Coordination Chemistry
